120 High pH Vehicle Pre-Soak

SmartSoaker is an ultra-concentrated, high-pH pre-soak that removes exhaust deposits, road film, and bug residues from vehicle surfaces in one application. Economical, eco-friendly, and free-rinsing, it uses biodegradable detergents for streak-free cleaning and high dilution rates, washing up to 10x more vehicles per gallon. Apply with low or high pressure in hot or cold water, ideally with treated water, and allow 10-15 seconds dwell time. Use after low-pH pre-soak in touch-free applications and rinse with medium or high-pressure water. Ideal for tunnel, in-bay, or self-serve washes; boost foaming with air injection.
